Teen Take and Make Kits: String Art

Supplies Provided:

- *2 Flat Boards*
- *70 Pins*
- *String*
- *Heart & Flag Templates*

Supplies Needed:

- *Scissors*
- *Glue*

Directions:

1. Glue the 2 boards together and wait 24 hours for it to dry.
2. Choose a template (either the flag or the heart).
3. Put the template on top of the board, and insert pins on top of the black dots. (They don't need to go in all the way, just until it feels sturdy).
4. Remove the paper from the board after all the pins have been inserted. (You may have to cut around the pins to help remove it easier).
5. Choose your first color, and tie a knot around the first pin with that color.
6. Using the pictures above as a guide, weave the thread around the color's section in a pattern.
7. At the end of the section, tie off the thread on the last pin.
8. Repeat for each section until completed.
9. To hang, punch a hole in the center, at the top and tie a string through it.
