Teen Take and Make Kits: Moss Wall Art

Supplies Provided:

- Frame
- Moss
- Decorations

Supplies Needed From Home:

- Optional: Sticks, Rocks
- Glue

Directions:

1. Draw out a sketch of where you want to put the different kinds of moss.
2. Pour glue in one section of the frame where you will put the first kind of moss. (We recommend starting with the flat sheet of moss, and putting that in the corners because it has a built-in corner.) Repeat with each kind of moss.
3. Arrange the moss as you'd like in each section. Be sure to fluff it out so you can cover more of the frame.

*To make your moss wall more unique,
add rocks trinkets or sticks!*
