

# Vernon Area Public Library

## Teen Take and Make Kits: Phone Charms

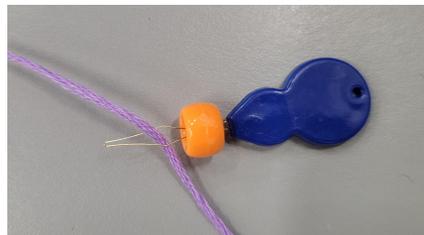

### Supplies Provided:

- Lanyard
- String
- Beads
- Threader

### Directions:

1. Put the beads on the string in any design you like. If a bead is hard to get on the thread, use the threader to get it on easier. Put the bead on first, then thread the string through the middle of the wires, then pull.

2. Tie the two ends of the string together on the silver loop of the lanyard.
3. Loop on to your phone case.
