Teen Take and Make Kits: DIY Foam Squishies

Supplies Provided:

- Foam
- Paint
- Paint Brush

Supplies Needed From Home:

- 6 oz Washable Glue
- 1/3 Cup of water
- Scissors
- Permanent Marker

Directions:

1. Using your permanent marker, draw out a pizza slice shape.
2. Using scissors (sharper pairs work best), cut out the pizza shape, according to the marker outline. It helps to make smaller cuts so you don't accidentally cut too much off.
3. Paint the squishy first with the acrylic paint. Yellow for the cheese, brown and white mixed for the crust, red for pepperoni or peppers, black for eyes and mouth and/or olives. Let dry for 24 hours.
4. Mix 6 oz of glue with 1/3 cup of water and coat the entire squishy. Let dry for 24 hours.
5. It is possible that you may need to touch up the paint and the
